

14th November 2006

Find enclosed a list of questions we ask during first contact with clients, as to cover the basic element on the feasibility of delivering 100% fresh food services in any educational establishment.

1. Current catering facilities, can they support such services preparing fresh food from scratch everyday?
2. Design of the catering services, can we help you in improving them or even built a kitchen for you, visit [www.ccdirect.org](http://www.ccdirect.org) for more details
3. School dining facilities & management could they cope with an large increase in uptake in school meals? From an average of 35% uptake by the council to 80% by restaurant ecole?
4. Have you visited [www.restaurant-ecole.com](http://www.restaurant-ecole.com) for more details information on a total fresh food service?
5. School leaders are their interested in an all fresh food approach and lifestyle?
6. Fresh food what have the schools leaders tried to introduce in the past?
7. Current services provider what are the main issues associated with their services?
8. School leaders, what do they wish and want from the catering services?
9. School board is there a support to move towards fresh food services?
10. New kitchen or an upgrade if required has the founding been identified and available to take the project forward?
11. Pupil's number taking lunch can you confirm the daily average and how much is charged for a meal?
12. Taking forward improvement which area interests you the most in?
13. Introducing a 100% fresh food service when would you consider this?
14. What issues in introducing fresh food in of the most concern for the school?
